Dear Friends, Patients, and Colleagues:

Please be advised that, as of June 14th, 2024, our practice, Noreen Kamal-Mostafavi, M.D. PLLC ("Practice") and its providers ceased participating in-network with health insurance plans. Our commitment to our patients is first and foremost and in the past five years, much of my time and efforts have been utilized on bureaucracy and regulations imposed by the insurance industry.

Why This Change?
Over the past five years, we have been fully committed to delivering personalized and exceptional care to each of you. However, the growing administrative demands and limitations imposed by insurance companies have increasingly diverted our time and focus away from patient care. With this change, we hope to eliminate these distractions and dedicate more of our energy to what truly matters—your health and well-being.

What Does This Mean for You?

Continued Care:
You are welcome to continue your care with us as an out-of-network provider, regardless of your insurance coverage. We will provide you with an itemized receipt so that you may submit your claims out-of-network for reimbursement, depending on your insurance plan.

Improved Care:
While this change has been a difficult decision, it allows us to focus more on providing exceptional care without the constraints of insurance regulations. I am confident that this transition will enhance the quality of care we deliver:

1. Less waiting time.
2. Faster return calls and email response time
3. Quicker lab and results follow-up
4. Continued excellent care utilizing the latest technology and the most thorough and accurate lab testing.

Lab Tests and Prescriptions:

You have the option to:

1. Use our in-office lab, Bioreference Labs, subject to the terms of your policy, for blood work, which will be billed to your insurance plan, or
2. If you prefer, we can provide you with a referral to have your tests done at a lab facility of your choice. We will also continue to process prescriptions through insurance.

Fee Schedule:

- New consultation fee for Initial visits/Problem Visits: $325
- Existing Patient Annual Visits/Problem Visits : $225
- Follow up Visits: $100
- Follow-up Procedures: Fee will be discussed at follow-up visit.

Exclusions:

These fees exclude diagnostic testing, procedures, services of outside providers, surgery centers, hospitals, anesthesiologists, and all items or services not expressly identified above.

Transfer of Medical Records:

If you choose not to continue with us, we will ensure that your prescriptions are filled until 12/31/2024 and we will gladly forward your medical records to your new provider, using the procedure "How to obtain your records," set forth below.

How to obtain your records?

1. Fill out the Attached form titled "Authorization for Release of Health Information Pursuant to HIPPA" with your information and the new provider's information including their fax number.
2. Please allow 2 weeks to fax this information to your new provider.
3. If you require a printed copy, there is a reasonable, cost-based $1.00/page fee.

Thank you for your understanding and continued trust in our practice.
Please contact us at 718-400-4588 with any questions.

Sincerely,
Dr. Noreen Kamal-Mostafavi
