Dear Valued Patient,

With changes in the health care industry and health insurance reimbursement over the last decade, it has become difficult to sustain a private practice as an independent solo practitioner without compromising the quality and comprehensive nature of patient care which is rooted in our philosophy. However, we would like to bridge the gap of care by providing you with a list of Ob/gyn Providers in Staten Island.
It is with a heavy heart we give this list to you but our commitment to your quality of care is at the forefront of this decision.
